1.2. Atividades desenvolvidas e coordenadas pelo Comitê Setorial

O inventário dos bens móveis e animais da Universidade de São Paulo teve início em 01/10, encerrando-se em 31/10/2024, propiciando maior prazo para oportunizar um controle amplo e detalhado dos bens, inventariando-se o máximo de quantitativo de itens possíveis, haja vista a implantação do módulo de depreciação, que impactará diretamente nos dados patrimoniais a serem depreciados.

Com o intuito de orientar e informar aos servidores (docentes e técnicos administrativos) sobre a importância e obrigatoriedade da realização do inventário, o Comitê junto com o Departamento de Finanças divulgou o Ofício Circular DF 23/2024.

1.3. Regularização de dados no Sistema Mercúrio

No período do inventário de 2023 as unidades/órgãos se depararam com bens não localizados. Em vista disso, foram encaminhadas orientações através da Instrução nº 001/2024 - Ações para os bens móveis e animais não localizados no inventário de 2023 e da Instrução nº 002/2024 - Ações para os estoques não localizados no inventário de 2023.

Foi publicada a Instrução nº 003/2024, que propiciou a atualização dos locais e centros gerenciais, resultando na conformidade dos dados do Sistema Mercúrio com a realidade da situação patrimonial.

Foram publicadas as Instruções nº 004/2024 que dispõe sobre a atualização e inclusão dos monitores de vídeos que haviam sido descaracterizados e a nº 005/2024 que dispõe sobre a regularização dos monitores de vídeo após o inventário.

1.4. Relatórios Conclusivos

A metodologia do Relatório Conclusivo neste inventário foi sistematizada. O preenchimento pela Comissão ocorre durante a validação, sendo necessário relatar os eventos e sugestões no campo “Ocorrência e recomendação”.

2. RESULTADOS ENCONTRADOS

Atualmente a Universidade de São Paulo tem 694.768 bens móveis, 2.348 animais incorporados ao patrimônio e 21.788 tipos de materiais em estoque.

O inventário foi realizado em dois períodos: 01 a 31/10/2024 (bens móveis/animais) e 01 a 13/12/2024 (estoques).

2.1. Resultado Geral do Inventário de 2024

No dia 31/10/2024 foi extraído do Sistema Administrativo no módulo Inventário dados do resultado total de bens inventariados ativos (não foram considerados os bens inservíveis na situação Retirado/recebido pela área de patrimônio).

Segue a composição patrimonial da USP em relação o resultado geral por quantidades demonstrado na Tabela 3 e o resultado geral por valores na Tabela 4:

Analisando contabilmente dos bens da Universidade, constatamos que há necessidade de realizar futuramente o ajuste pelo valor justo dos bens antigos (valor de mercado depreciado). Ainda, foi verificado que em 2024 houve unidades/órgãos que incorporaram bens por valor simbólico, conforme apresenta a seguir na tabela 5 e tabela 6:

Tabela 11 - Resultado Geral do Inventário Físico de Bens Móveis/animais e de Estoques

Os dados da tabela anterior revelam o esforço conjunto das Comissões Subsetoriais com as áreas de patrimônio e almoxarifado, os Responsáveis Locais dos centros gerenciais e os servidores docentes e técnico-administrativos que tenham bens móveis, estoques e/ou animais sob sua guarda.

Em relação aos bens móveis inventariados, a média foi de 91,31%. Nota-se que 70 unidades/órgãos inventariaram acima da média, destacando que 20 unidades atingiram 100% dos bens móveis inventariados e 22 unidades/órgãos ficaram abaixo da média.

Em relação aos animais inventariados, a média foi de 96,54%, destacando que apenas a FZEA ficou abaixo da média.

A média dos estoques foi de 96,60%. Observa-se que 62 unidades/órgãos realizaram o inventário, com destaque para o CENA, EEFE e IMT, que não realizaram o processo. Vale ressaltar que o IMT já não havia realizado o inventário em 2023 na época.

2.3. Resultado “Localizado” e “Não Localizado” do Inventário de Bens Móveis/Animais e de Estoques por unidade/órgão

No período pré-inventário foi solicitada a regularização dos bens com o objetivo de iniciar o período de inventário com a localização e responsabilidade pelos bens devidamente atualizados.

As tabelas a seguir demonstram os quantitativos de bens móveis, animais e estoques localizados, não localizados, localizados parcialmente (específico para estoque) e pendentes de inventariar, tratando-se de dados consolidados após o encerramento do inventário.

Tabela 14 - Quantitativo de Estoques Inventariados

2.4. Resultado dos Relatórios Conclusivos

Em seguida serão apresentados os gráficos dos dados de gestão dos bens móveis/animais e dos estoques preenchidos nos Relatórios Conclusivos, os quais evidenciam o resultado do inventário físico.

2.4.1. Bens móveis

Ao analisar os dados do inventário, foi possível identificar que dos **694.768** bens registrados **634.485** foram inventariados. São 95.188 bens estão classificados como não localizados ou penderes. A seguir, serão detalhados os dados referentes aos **599.580 itens** informados como **localizados**, com a apresentação do estado de conservação e a utilização dos bens, conforme ilustrado nos **Gráfico 1** e **Gráfico 2**, respectivamente.

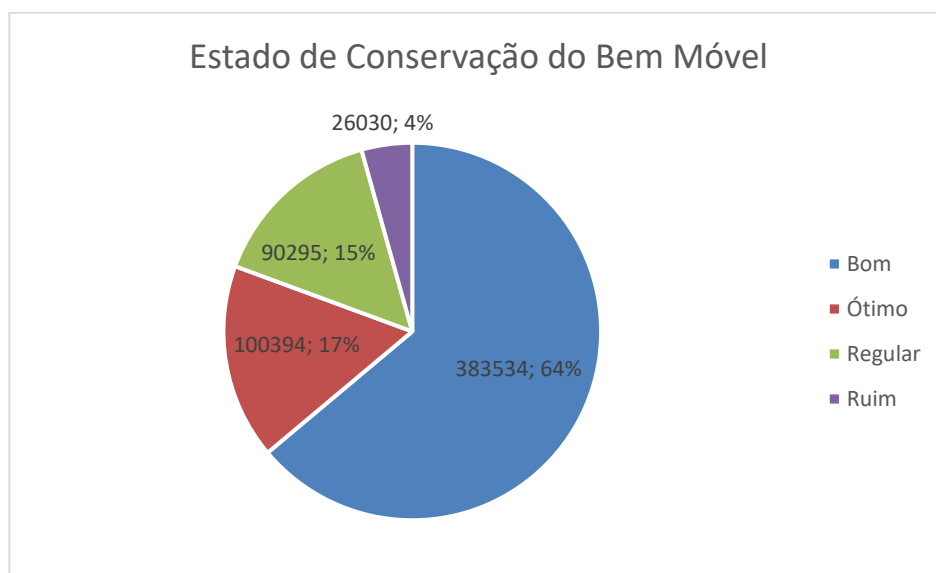

Gráfico 1 – Percentual do Estado de Conservação do Bem Móvel

Ao analisar dos dados referentes ao estado de conservação dos itens pode-se constatar que a grande maioria dos bens (aproximadamente 81%) está em ótima ou boas ou regulares condições, o que é um excelente reflexo da gestão e da manutenção do patrimônio e apenas 19% dos bens estão em condição ruins ou péssimas, indicando que a quantidade de itens com problemas graves é mínima.

Já o gráfico 2 apresenta o estado de utilização do bem, sendo que 92,93% foram declarados como em uso.

No que tange aos itens declarados como ocioso, os quais poder ser reaproveitados por outras unidades/órgão e os itens declarados como irrecuperável, verificar se é possível a baixa dos mesmos.

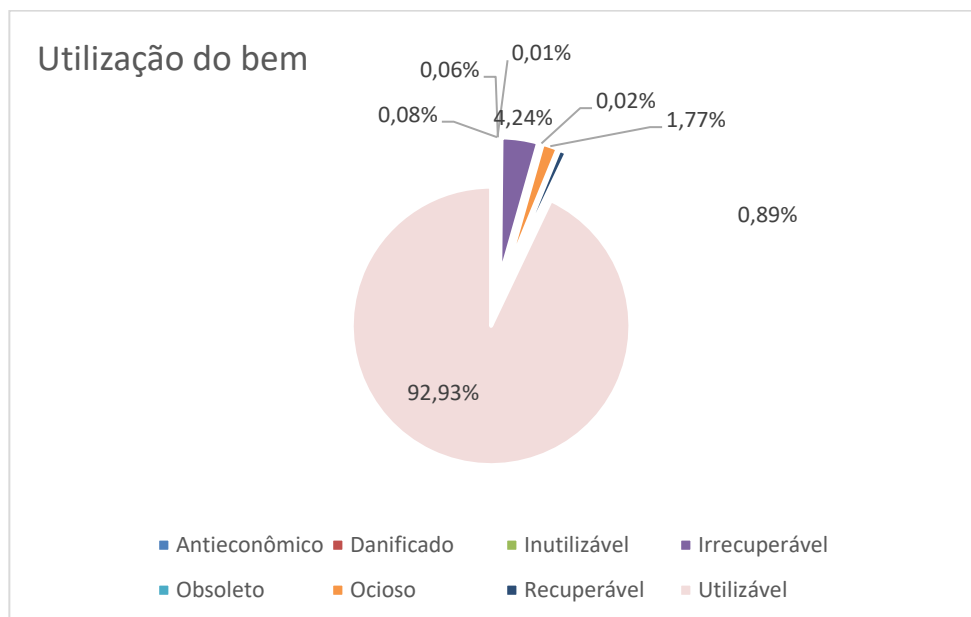

Gráfico 2 – Percentual da Utilização do Bem

2.4.2 Animais

Ao analisar os dados do inventário, foi possível verificar que **2.348 animais** registrados sendo que **2.267** foram **inventariados**. São 216 animais estão classificados como não localizados ou pendente.

No Gráfico 3, é possível observar que dos 2.132 animais localizados, a condição física dos animais (aproximadamente 94%) no momento da avaliação (em outubro) está classificado como ótimo ou bom.

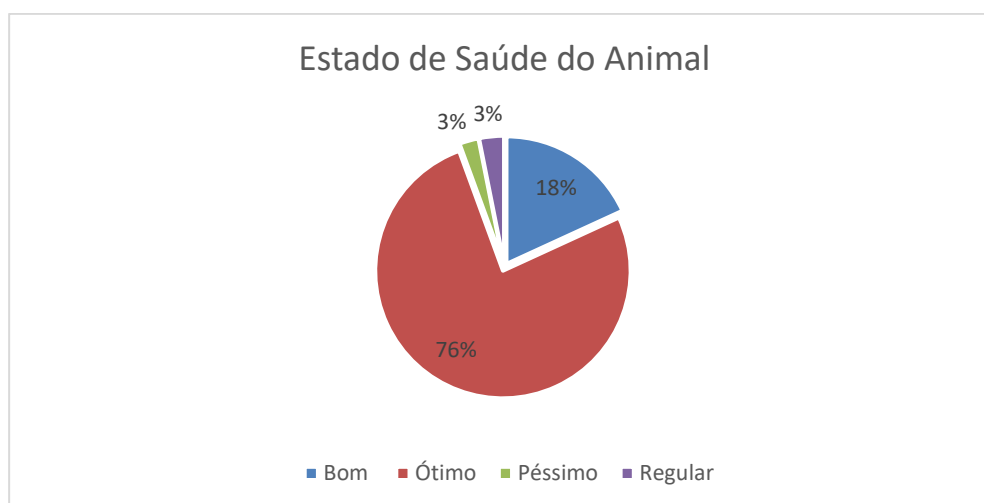

Gráfico 3 – Percentual do Estado de Saúde do Animal

2.4.3 Estoques

Ao analisar os dados do inventário dos 21.788 bens registrados pela Universidade, constatou-se que 21.047 bens foram efetivamente inventariados, sendo 117 não foram localizado.

A seguir, serão detalhados os estados de conservação com base no inventário apresentado, conforme o gráfico 4.

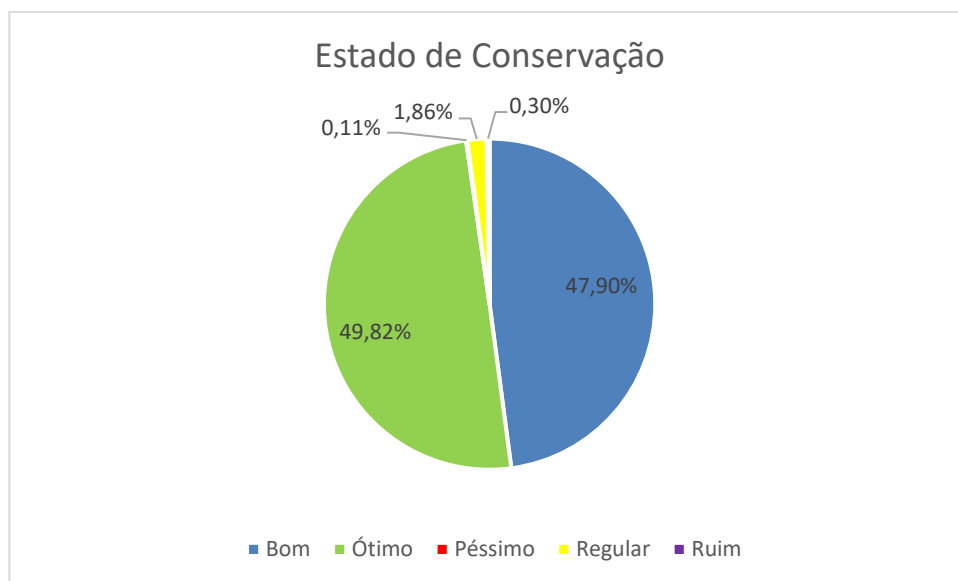

Gráfico 4 - Estado de Conservação dos Bens Inventariados

Nota-se que:

- Ótimo (49,82%): Quase metade dos bens estão em estado "Ótimo", o que é um excelente indicador de que a maioria dos itens da universidade está em condições excelentes. Esse percentual alto demonstra que a gestão dos bens tem sido eficaz em manter a qualidade de grande parte do patrimônio.
- Bom (47,90%): Um percentual muito próximo de "Ótimo", indicando que a maioria dos bens está em boas condições. Juntas, as categorias "Ótimo" e "Bom" somam quase 97%, o que significa que a grande maioria dos bens está em condições favoráveis e não apresenta problemas graves.
- Regular (1,86%): Uma pequena porcentagem de itens está em estado regular. Esses bens podem exigir algum tipo de atenção ou manutenção, mas ainda não estão em condições críticas. Este número é baixo, indicando que a grande maioria dos itens não apresenta grandes problemas.

- Ruim (0,30%): Uma fração muito pequena de itens está em estado "Ruim". Embora representem uma quantidade reduzida, esses itens podem precisar de reparos significativos ou até de substituição.
- Péssimo (0,11%): Apenas uma quantidade mínima de itens está em estado "Péssimo". Esses bens podem estar totalmente danificados ou fora de uso, e é fundamental que sejam tratados com urgência para evitar impactos no funcionamento da universidade

A seguir no gráfico 5 demonstra a porcentagem dos bens em obsolescência no almoxarifado, sendo que:

- 97,30% - Não: A grande maioria dos bens no almoxarifado não está obsoleta. Isso indica que apenas uma pequena parte dos itens está em condições de serem descartados ou substituídos, o que sugere uma boa gestão dos materiais e um controle eficiente sobre os bens.
- 2,70% - Sim: Apenas uma pequena fração dos bens (2,70%) está obsoleta. Esse valor baixo é um indicador positivo, pois significa que muito poucos itens se tornaram obsoletos ou inúteis no almoxarifado. A instituição provavelmente está fazendo um bom trabalho na atualização e reposição de materiais.

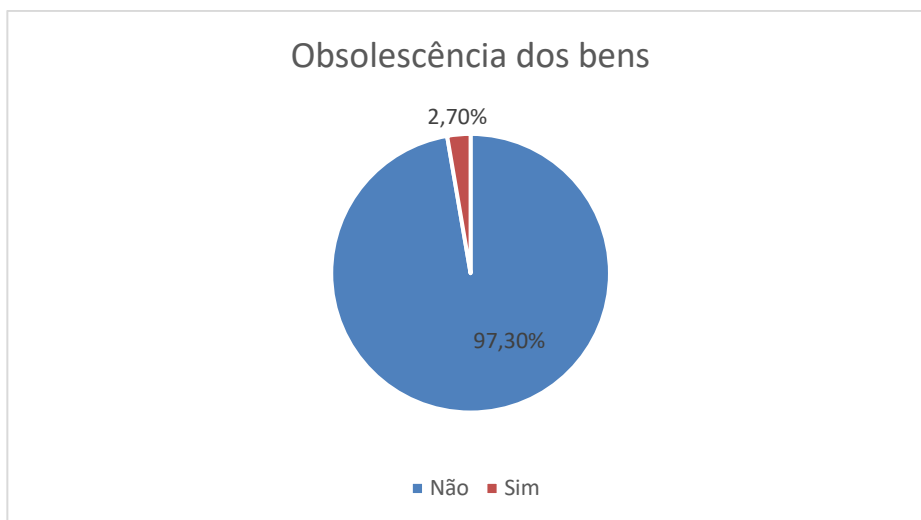

Gráfico 5 - Bens em Obsolescência no Almoxarifado

Nota-se que apenas **2,70%** dos bens considerados obsoletos, a gestão do almoxarifado parece ser eficiente, com a maior parte dos itens ainda sendo utilizáveis e bem mantidos.

A porcentagem baixa de obsolescência sugere que o almoxarifado está bem organizado e há um bom controle sobre os itens armazenados, o que contribui para a redução de custos e desperdícios.

2.5. Comparativo entre os inventários dos exercícios de 2022, 2023 e 2024

A seguir, apresentam-se um quadro resumo com os resultados gerais dos dados relativos ao **total de bens ativos**, **bens inventariados** e os **percentuais alcançados** nos inventários realizados nos exercícios de **2022**, **2023** e **2024**. Os dados apresentados foram extraídos dos **Relatórios de Inventário** dos respectivos anos.

É possível observar a **evolução dos percentuais de bens inventariados** pelas unidades/órgãos ao longo dos exercícios.

Com base dos dados dos resultados do inventário, a seguir, podemos realizar uma análise detalhada sobre a quantidade de bens inventariados ao longo dos anos, considerando tanto os bens inventariados quanto o total do bem móvel.

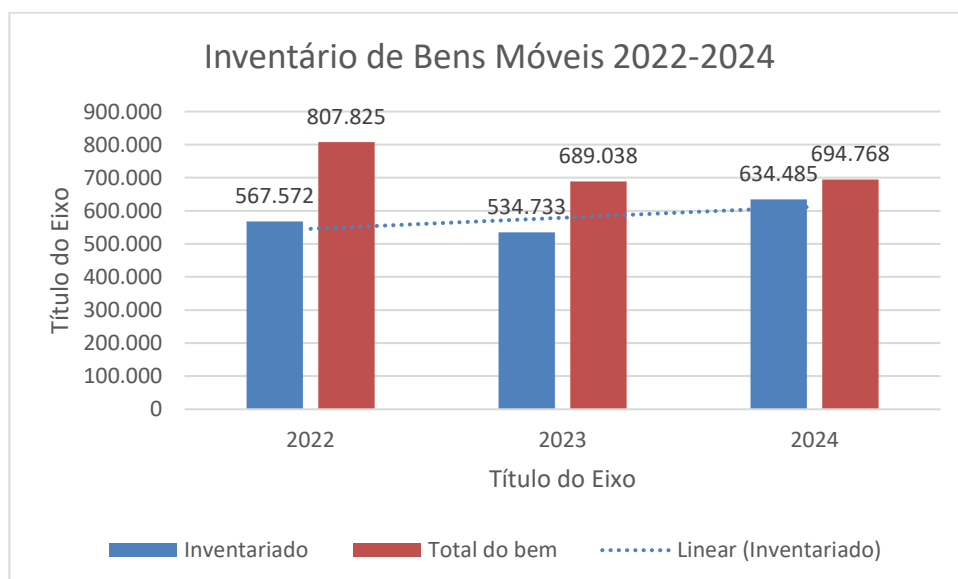

Gráfico 6 - Inventário de Bens Móveis de 2022 – 2024

Demonstrativo em relação a percentual de quantidade de bens inventariados e o total de bens, seguem:

- Variação percentual de quantidade inventariada:

De 2022 para 2023 = 5,79%

Significa que houve uma redução de 5,79 na quantidade de bens inventariados de 2022 para 2023.

De 2023 para 2024 = 18,68%

Houve um aumento de 18,68% na quantidade de bens inventariados de 2023 para 2024. O aumento na quantidade de bens inventariados em 2024 sugere que a gestão do inventário foi mais rigorosa e/ou a conscientização da importância da realização do inventário.

- Variação percentual de total de bens:

De 2022 para 2023 = 14,74%

O total de bens caiu 14,74 de 2022 para 2023, conforme relatado no relatório de 2023 foi em virtude da descaracterização, com base na Portaria CODAGE 791/2019.

De 2023 para 2024 = 0,83%

Houve um aumento de 0,83%, o que indica que houve um pequeno acréscimo no número total de bens, talvez devido a aquisições ou novas entradas.

A seguir, análise comparativo dos animais inventariados, os dados fornecidos representam informações relacionadas ao número de animais registrados no período de 2022 a 2024.

Gráfico 7 - Inventário de Animais 2022-2024

A partir do gráfico 07 fornecido, podemos tirar as seguintes conclusões:

Crescimento estável:

- O número de animais inventariados cresceu de **2022 para 2023** em **4,64%**, indicando um aumento significativo no inventário de animais. Indicar uma mudança ou expansão no processo de inventário ou em outros fatores que afetaram esse número.
- No entanto, de **2023 para 2024**, o crescimento foi mais modesto, com uma variação de apenas **0,44%**, sugerindo que o aumento no número de animais inventariados foi mais estável e menos expressivo no último ano analisado.

Média constante:

A **média** do número de animais inventariados ao longo dos três anos foi de **2.227 animais**, o que reflete uma média relativamente estável, com um crescimento contínuo, embora pequeno, ao longo do período.

Essa análise sugere que, enquanto houve um aumento no número de animais inventariados, esse aumento está começando a se estabilizar. Isso pode ser importante para entender as tendências e planejar ações para o futuro do inventário.

Agora que temos os dados de **inventário de almoxarifado** para os anos de 2022, 2023 e 2024, podemos realizar uma análise simples do inventário, semelhante à análise que fizemos anteriormente.

Tabela 17 - Inventário de Almoxarifado de 2022, 2023 e 2024.

Observa-se uma diminuição **tanto no número de itens inventariados quanto no valor total do bem**. Essa redução contínua é evidenciada pela queda expressiva registrada ao longo dos três anos.

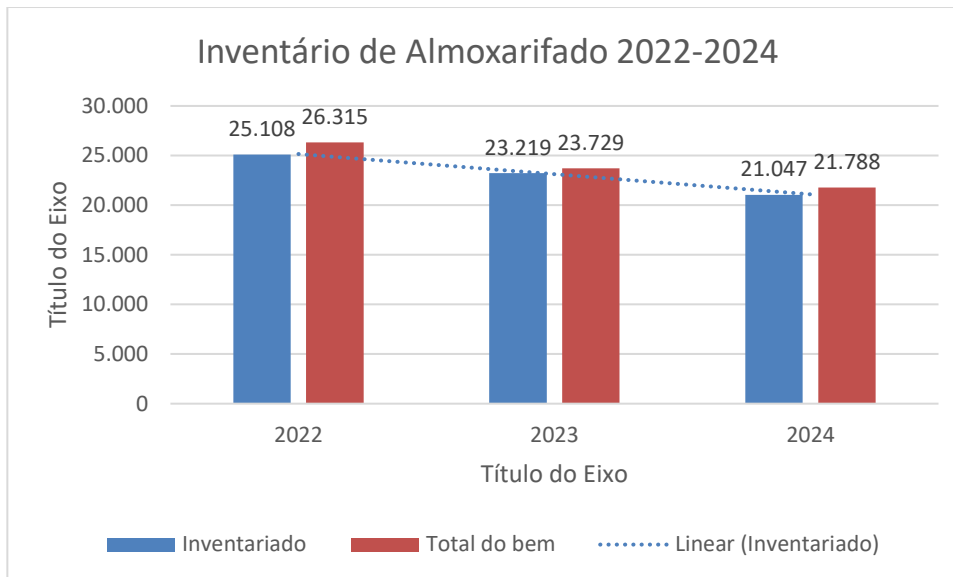

Gráfico 8 - Inventário de Almojarifado 2022-2024

Com base na análise dos dados de inventário de bens móveis, animais e almojarifado entre os anos de 2022 a 2024, podemos concluir a seguir:

No gráfico 9, observamos um crescimento contínuo e significativo na percentagem de bens registrados, o que reflete uma melhoria constante na gestão e controle desses ativos. Em 2022, a percentagem de bens móveis inventariados era de **70,25%**, e ao final de 2024, esse número alcançou **91,31%**. Esse aumento expressivo demonstra que a organização tem se esforçado para aprimorar seus processos de inventário e registro de bens móveis ao longo do tempo.

O crescimento foi particularmente notável de 2022 para 2023, com uma variação de **10,45%**, e de 2023 para 2024, com uma aceleração ainda maior de **17,67%**. Esses números indicam que a estratégia de controle de inventário está se tornando cada vez mais eficaz, com uma maior quantidade de bens sendo devidamente monitorada e registrada, refletindo uma gestão mais precisa e eficiente dos ativos da organização.

A média de **79,72%** de inventário registrado nos três anos analisados sugere que a organização estava progressivamente se aproximando de um nível ideal de controle. Embora em 2024 tenha sido atingida uma percentagem de **91,31%**, o que é um excelente progresso, ainda há espaço para um aperfeiçoamento contínuo, buscando sempre a **totalidade do inventário (100%)**, que representaria um controle completo e sem lacunas.

Esse avanço no processo de inventário não só demonstra eficiência operacional, mas também pode estar relacionado à implementação de novas tecnologias, aprimoramento nos

processos logísticos ou até treinamento contínuo da equipe responsável. A melhoria no inventário de bens móveis garante que a organização tenha um controle mais rigoroso sobre seus ativos, minimizando perdas, desvios ou problemas de gestão, o que, por sua vez, impacta positivamente nos resultados financeiros e operacionais.

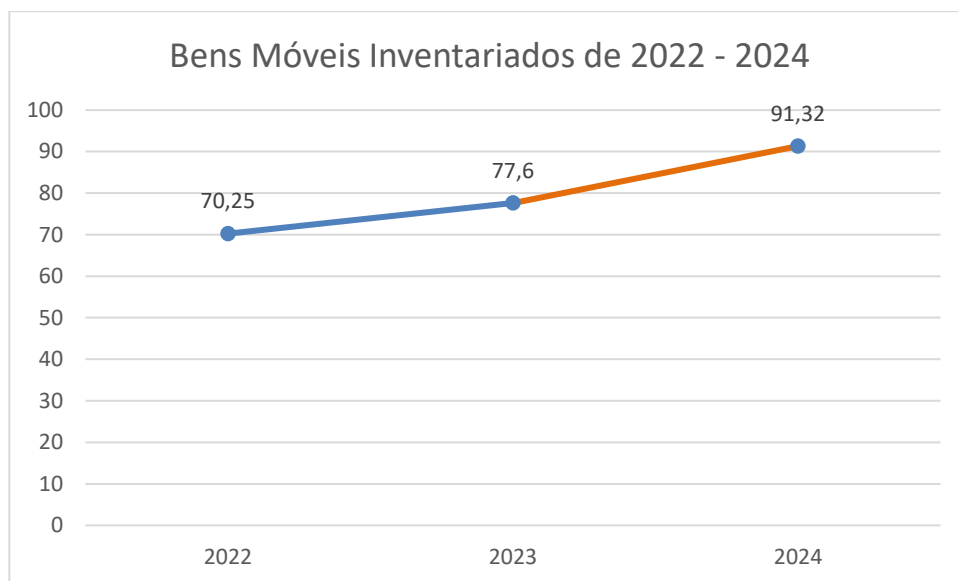

Gráfico 9 - Bens móveis inventariados em 2022, 2023 e 2024.

Com base na análise do inventário de animais entre os anos de 2022 a 2024 demonstrado no gráfico 10, observamos uma tendência interessante no crescimento do número de animais inventariados. Em 2022, o número de animais era de **2.157**, o que aumentou para **2.257** em 2023, representando um crescimento de **4,64%**. Esse aumento inicial sugere uma expansão significativa no número de animais registrados, o que pode ser um reflexo de uma demanda crescente ou de uma estratégia de aumento do inventário.

No entanto, de 2023 para 2024, a taxa de crescimento diminuiu consideravelmente, com um aumento modesto de **0,44%**, passando de **2.257** para **2.267**. Essa desaceleração no ritmo de crescimento pode indicar que o inventário atingiu um ponto de estabilização. Fatores como a saturação do mercado, uma gestão mais eficiente e controlada ou até mesmo limites operacionais podem estar influenciando essa diminuição no ritmo de expansão.

A média do número de animais inventariados nos três anos foi de **2.227**, refletindo uma tendência de crescimento moderado, mas consistente, ao longo do período. Esse padrão de crescimento, com uma aceleração inicial e uma estabilização nos últimos anos, pode ser um indicativo de que o processo de inventário atingiu uma fase de equilíbrio, onde o

aumento do número de animais é mais controlado e alinhado com a capacidade de gestão e a demanda do mercado.

Em resumo, enquanto o aumento do inventário de animais foi considerável nos dois primeiros anos, o ritmo de crescimento está claramente desacelerando, o que pode ser interpretado de forma positiva, pois indica que o inventário está sendo gerido de maneira mais eficiente e controlada. No entanto, é importante monitorar esse comportamento para garantir que a estabilização não seja um reflexo de fatores limitantes que possam impactar negativamente o crescimento futuro.

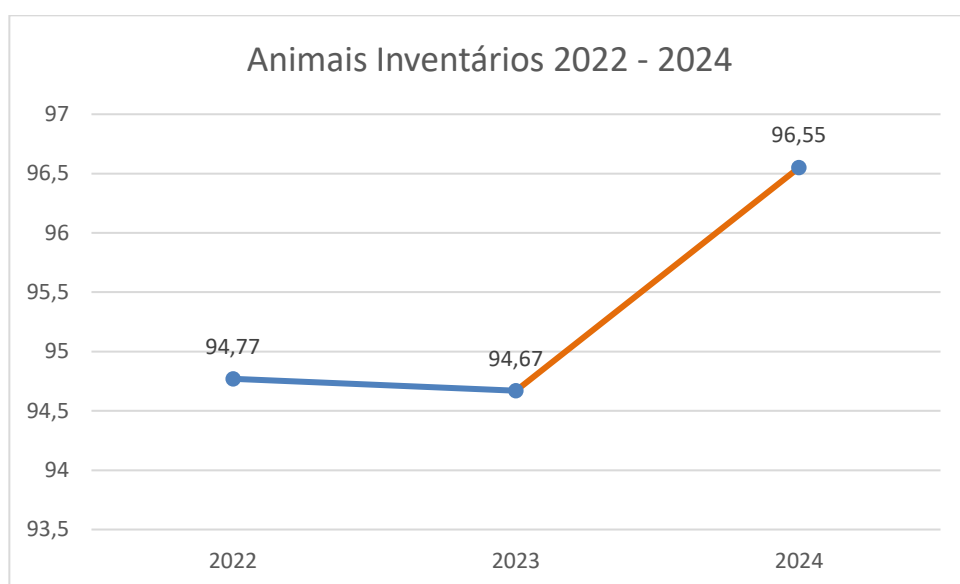

Gráfico 10 - Animais inventariados em 2022, 2023 e 2024.

O gráfico 11 observa-se uma redução contínua no número de itens inventariados ao longo de 2022 a 2024.

Em 2023, houve uma **diminuição de 7,54% no número de itens** inventariados em comparação com 2022. Já de 2023 para 2024, essa queda foi ainda mais acentuada, chegando a **9,37%**.

A análise aponta para uma **tendência de estabilização ou diminuição do inventário**, o que exige uma revisão cuidadosa dos processos de gestão do almoxarifado, visando garantir que os recursos sejam adequadamente alocados e que a operação continue eficiente e sustentável.

3. OCORRÊNCIAS E RECOMENDAÇÕES APONTADAS PELAS COMISSÕES SUBSETORIAIS

Foram compilados os principais relatos encontrados pelas Comissões Subsetoriais de Inventário nos Relatórios Conclusivos encaminhados pelas unidades/órgãos da USP:

3.1. Bens Móveis

1. Dificuldade de sensibilizar e elucidar os servidores sobre a obrigação legal e a importância de realizar o inventário todos os anos.
2. Reformular a Comissão Subsetorial da Reitoria, desmembrando os órgãos e tendo suas próprias Comissões específicas para cada Unidade. Nos dois primeiros anos houve grande dificuldade de comunicação devido ao alto número de bens, de servidores e cargos, de prédios e suas localizações. No terceiro ano, ocasião em que foram integrados membros que representaram as unidades/órgãos, não foi percebido significativo empenho nem interesse da maioria dos membros.
3. Atualizar automaticamente no MercúrioWeb e Administrativo a situação dos bens inventariados.
4. Elaborar orientações de procedimentos para os usuários sobre os bens pendentes, com metodologia de cobrança aos usuários para executarem o inventário, aplicando-se sanções escalonadas, em caso de reincidências.
5. Elaborar orientações de procedimentos para os responsáveis locais dos bens pendentes do respectivo centro gerencial com metodologia de cobrança para executarem suas tarefas (acompanhando a evolução do inventário local, regularização dos bens, realização do inventário para os servidores em licença etc.), aplicando-se sanções escalonadas, em caso de reincidências.
6. Os centros gerenciais precisam ter obrigatoriamente um responsável local designado.
7. Elaborar procedimento para conscientizar os assistentes da importância de manter os centros gerenciais atualizados, bem como designar para cada um deles os devidos responsáveis locais.
8. Criar procedimentos para os bens não localizados com critérios objetivos para análise das justificativas, tendo em vista que a subjetividade traz uma infinidade de critérios.

9. Promover atividades e eventos convocatórios aos diferentes públicos da Universidade (sobretudo assistentes e responsáveis locais) para conscientizar sobre o tema, indicando ações e propostas de melhorias para o próximo Inventário.
10. Divulgar pop-ups e mensagens nos sistemas institucionais (em especial MercúrioWeb, Administrativo, MarteWeb e IfPonto) informando sobre o Período de Inventário.
11. Melhorar os procedimentos de Inventário e a interface do sistema a fim de facilitar o fluxo do Inventário (reduzir as ações de Patrimônio em um só sistema, dentre outras melhorias e facilidades a serem discutidas em grupo).
12. Aumentar o número de servidores na área de patrimônio, uma vez que em várias unidades/órgãos há apenas um servidor para efetuar as duas funções (Patrimônio e Almoxarifado).
13. Falta de estrutura adequada, na maior parte das unidades/órgãos, para guarda de bens excedentes destinados ao descarte ou disponibilização.
14. Diferença nos valores encontrados das contas contábeis
15. Os veículos recolhidos para leilão devem ter alteração de local e responsabilidade para o servidor que detém a guarda do bem.
16. Criação de um app (aplicativo) com leitor de códigos de barras para identificação dos bens.
17. Tornar contínuo o plano de ação para regularização dos bens patrimoniados.

3.2. Animais

1. Diante do levantamento dos semoventes existentes na Universidade, aquelas unidades/órgãos que apresentam animais para estudos e pesquisas poderão ser classificados como bens de consumo, visando estabelecer a correta contabilização.
2. Do total de 135 animais não localizados, 03 são do ICB e 132 da ESALQ. Sendo que, os 132 foram vendidos no 80º Leilão da ESALQ, realizado em 05/10/2024. Não foi possível regularizar a baixa no Sistema Mercúrio até o momento, uma vez que os trâmites processuais estão em andamento.
3. Diferenças contábeis: Existem discrepâncias contábeis que estão sendo verificadas. A regularização e o lançamento dessas diferenças serão concluídos até 31/12/2024.
4. Espelhar todo fluxo das ações da tela de bens móveis para a tela de animais.
5. Periodicidade na atividade de baixa de animais para fins de regularização.

3.3. Estoques

1. Verificar uma forma de descarte para os materiais que estão vencidos, materiais obsoletos devido a novas tecnologias e materiais sem movimentação.
2. Almoxarifados com espaço físico inadequado ou insuficiente para o armazenamento de itens.
3. Morosidade na entrega de materiais para os setores por falta de servidores suficientes na gestão do almoxarifado.
4. Falta de planejamento dos itens a serem comprados para reposição do estoque.
5. Falta de organização na separação do material, visando sempre a saída dos produtos com data de validade mais próxima do vencimento em relação aos com data de validade mais longa.
6. Divergência no saldo do inventário com o balancete.
7. Itens não localizados no estoque devido a falta de atenção na separação e na conferência.
8. Criação de uma Comissão USP de Almoxarifado, semelhante à COMPATRIM, para orientar os servidores em muitas questões pendentes.
9. Itens com divergência nas quantidades.
10. Realização de treinamento para os operadores de Almoxarifado, tanto para a operação quotidiana do setor quanto para a realização do inventário.
11. Elaboração de um Manual de Instruções de Operação do Almoxarifado, nos mesmos moldes do existente para o Patrimônio.
12. Disciplinar procedimento para baixa de materiais não localizados no inventário.
13. Adoção de uma rotina de conferência periódica do estoque, não deixando apenas a base anual do inventário como única data para a contagem física e de organização do almoxarifado, verificando os itens próximos do prazo final de validade, o estado de conservação, itens para disponibilização/descarte e as quantidades necessárias dos itens para aquisição.

4. META PARA O EXERCÍCIO DE 2025

- Implantar o módulo de depreciação acumulada para os bens móveis e animais;
- Dar continuidade ao plano de ação para regularização dos bens pendentes e não localizados durante o inventário;
- Promover ações para conscientização dos servidores docentes e técnico-administrativo sobre a importância do inventário e consequência;
- Analisar os procedimentos do almoxarifado;
- Implantar o app de Inventário Patrimonial.

5. ESCLARECIMENTO

Estamos em processo de conciliação contábil, visando apresentar as informações da maneira mais fidedigna possível, demandando a depreciação e o ajuste patrimonial por classes de contas do ativo imobilizado.

O tratamento contábil do Inventário 2024 foi processado com base nas informações extraídas do Sistema Mercúrio em 31/12/2024, encerramento do exercício 2024, para a devida contabilização no SIAFEM.

6. CONCLUSÃO

A gestão patrimonial consiste em planejar, organizar, controlar, zelar, conservar e promover a melhor utilização dos materiais permanentes disponíveis na Instituição.

Com a criação da Certidão de Regularidade Patrimonial, o cuidado de cada servidor com os bens sob sua responsabilidade tornou-se uma medida extremamente essencial para que a sua prestação de contas ocorra sem maiores percalços e eventual ressarcimento aos cofres públicos.

Para o ano de 2025 pretendemos atingir a meta de ter 100% de bens da USP inventariados. Estamos muito perto de atingir nossa meta, pois neste ano já atingimos o percentual de 91,32%

Somos todos responsáveis: o comprometimento, a conscientização e o zelo com o patrimônio público tomou novos rumos. Estamos no caminho certo.
